

CHANHENG MENH

ABOUT ME

I'm a Digital Infrastructure graduate from the American University of Phnom Penh with hands-on experience in Data Analysis, AI/ML, DevOps, and IT operations. I build and deploy machine learning models, provision cloud infrastructure with Terraform, and maintain CI/CD pipelines — end to end, without needing a team to glue the pieces together. I'm seeking roles in data, AI/ML, DevOps, or IT where technical ownership and problem-solving matter.

EDUCATION

- 2023-2026**
American University of Phnom Penh
Bachelor of Science in Digital Infrastructure
- 2019 - 2022**
BELTEI International School
Grade: B

LANGUAGES

- Khmer:** Native
- English:** Professional Working Proficiency
- Chinese:** Basic (Elementary)

SKILLS

Analytics

- Power BI
- Excel

Infrastructure & DevOps

- Terraform
- GitHub Actions
- Jenkins
- SonarQube
- Docker
- Grafana
- Kubernetes
- Prometheus
- AWS (EC2, S3, RDS)
- Linux

Data & AI/ML

- Python
- Optuna
- PyTorch
- Pandas
- TensorFlow
- NumPy
- Scikit-learn
- Computer Vision
- YOLO
- NLP

Databases & Cloud

- PostgreSQL
- Firebase
- MongoDB
- Supabase
- DynamoDB
- SQL

Development & APIs

- FastAPI
- RESTful API Design
- SQLAlchemy
- Git
- Node.js

REFERENCES

- Dr. Tek Ming Ng**
Dean, Faculty of Digital Technologies, AUPP

TECHNICAL PROJECTS

- NLP Discord Moderation System** | RoBERTa, PyTorch, Optuna | [github](#)
 - Engineered a deep learning natural language processing pipeline utilizing the RoBERTa architecture for automated Discord text moderation and sequence classification.
 - Optimized model performance by implementing Optuna for automated hyperparameter tuning (learning rate, batch sizes, epochs), successfully deploying the optimized classifier for targeted text analysis.
- Public School Management System** | FastAPI, Next.js, PostgreSQL, Vercel, Railway | [github](#)
 - Architected a high-availability educational platform with a Next.js frontend and a FastAPI backend, ensuring high service reliability.
 - Engineered a custom behavior analytics engine to track real-time engagement and a secure REST API featuring JWT authentication and RBAC.
 - Optimized data infrastructure by configuring internal PostgreSQL connections on Railway, eliminating public network latency.
- Spam Classification Pipeline** | Scikit-learn, Pandas, Python | [github](#)
 - Architected a traditional machine learning pipeline evaluating both tree-based (Random Forest, Gradient Boosting) and linear (Logistic Regression, Naive Bayes) classification models.
 - Implemented distinct preprocessing workflows for tree-based vs. linear architectures, optimizing model selection based on F1-score performance for imbalanced datasets.
- Traffic Accident Analysis** | Power BI | [github](#)
 - Power BI dashboard analyzing traffic accident data, providing insights into accident trends, causes, and high-risk areas in the United Kingdom over the course of 2021 and 2022.
 - Utilized Power Query for data transformation and DAX for advanced calculations, enabling interactive visualizations and actionable insights for decision-making.

EXPERIENCE

- RMO TECHNOLOGY CO., LTD** **Jul 2026 - Present**
Cloud Infrastructure Engineer
 - Systems & AD Deployment: Deployed enterprise Linux, Active Directory (AD DS), and HA PostgreSQL/Pgpool2 clusters, managing GPOs and system configurations.
 - Containers & Security Operations: Configured Docker Swarm with GlusterFS, supported vulnerability assessments (VA), and assisted with urgent incident response.
- SpaceGap** **May 2025 - Jul 2025**
UI/UX & Frontend Developer Intern
 - Collaborated in a team of 5 to design and deploy 2 web application pages, contributing to UI/UX design in Figma for a student management platform.
 - Designed key platform modules including student dashboard, event scheduling, reports and analytics, user profile, and notification systems.
 - Developed interactive frontend components, calendar, and to-do list using Bootstrap for responsive UI architecture.
- Spring Education Centre** **Jul 2023 - Aug 2023**
Digital Content Creator Intern
 - Produced and published weekly video content across TikTok and Facebook to drive brand awareness for an early-stage education startup.
 - Reached over 4,000 viewers per video, supporting the centre's initial community growth and audience engagement.

LEADERSHIP & INVOLVEMENT

- Chess Club President, AUPP** | Jan 2026 – May 2026
 - Facilitated weekly sessions for 15 to 20 members, cultivating a campus culture of analytical problem-solving, and strategic thinking.
 - Directed the planning and execution of the AUPP Chess Tournament, managing event logistics, player brackets, and promotional outreach.
- Mentor - AUPP Student Affairs Mentorship Program** | Sep 2025 - May 2026
 - Guided incoming freshmen through their university transition and academic planning, while delivering targeted academic support in AI and machine learning coursework.
- Member - Global Shapers Phnom Penh Community** | Jan 2024 - Present
 - Led end-to-end digital campaigns for the Riel Hackathon for Kids, scaling event visibility and impact.
 - Coordinated site logistics, vendor management, and cross-functional outreach for community events.
- IT Support Volunteer - 20th CamTESOL** | 2024
 - Managed Audio/Visual (A/V) setup and provided live technical troubleshooting for a dedicated presentation room during a major international conference.

ACHIEVEMENT

- Techo Digital Talent Scholar, 2023** | Ministry of Posts and Telecommunications, Cambodia
Awarded a government-initiated scholarship recognizing academic merit in Mathematics, Logic, and English for digital economy development.
- Grade 12 Physics Outstanding Competition** | Ranked 5th in Phnom Penh (Ministry of Education, 2022)
